## Fashion Catalogue

Posted by Leanne - 2008/05/28 10:40

---

I work at a fashion company and we would like to translate our fashion catalogue into French and Chinese. How much it would be to translate one document into two different languages? How long would it take?

The price will depend on how many words there are. Please email a sample document and we will provide a free translation quote. Our usual turnaround time depends on the size of the project and the estimated word count. We will let you know the exact turnaround time in our quote. We usually charge translations per French word count for the French translation and per English word count for the Chinese translation. Our French and Chinese translators are based in Vancouver.
