I am working for a movie company and want to translate our movie into French, Japanese and Chinese. We also want your voice actors record a voiceover in Canadian French, Japanese and Mandarin. How much would it be and how long would it take to finish it?

If you require a voiceover in foreign languages, we would ideally need to receive an English script from you, which we would translate into French, Japanese and Chinese. If you don't have a script available, we would first transcribe your video into written English and subsequently translate it. After completion of the foreign language translation, we would record the voiceover in Canadian French, Japanese and Mandarin using voiceover artists of your choice.
